

International Workshop in Philosophy of Mathematics:

Frege's Real Numbers

Tuesday, May 27, 2014

*Università Cattolica del Sacro Cuore
Sala Negri da Oleggio – Largo Gemelli, 1 – Milano*

14:30 h.

Opening

Ciro De Florio – Università Cattolica del Sacro Cuore

Frege on real numbers, mass quantities, and the application constraint

Stewart Shapiro – Ohio State University

On the logicity of Frege's definition of real numbers

Marco Panza – IHPST – Université Paris 1 Sorbonne

Discussants:

Alessandro Giordani - Università Cattolica del Sacro Cuore

Matteo Plebani - Università della Basilicata

Supported by:

FIRB 2012: Classical Paradigms and Theoretical Foundations in Contemporary Research in Formal and Material Ontology; **PRIN 2010-11:** "Realism and Objectivity" (Unit coordinator: C. Bianchi); **PhD Program** in Cognitive Neurosciences and Philosophy of Mind (San Raffaele University-NeTS at IUSS Pavia).

In collaboration with **FilMat Network**.

Organised by:

Francesca Boccuni

Ciro De Florio

Andrea Sereni
